

GB Use a slip knot for threading the needle. This will lock your needle in place and ensure both strands always come through with the same tension. Recommended needle N.24.

F Utiliser un noeud coulant pour enfiler le fil dans l'aiguille. Cela maintiendra votre aiguille en place et assurera une tension égale de vos fils. Aiguille n° 24 recommandée.

E Utilice un nudo corredizo para enhebrar la aguja. De este modo la aguja se quedará fija en su sitio y se asegurará de que ambas hebras tengan siempre la misma tensión. Se recomienda la aguja del n° 24.

I Usare un nodo scorrevole per infilare l'ago. Sarà così possibile tenere l'ago in posizione e avere la stessa tensione su entrambi i fili. Si raccomanda di usare l'ago Nr.24

P Utilize um nó corredio para enfiar o fio na agulha. Isto irá manter a sua agulha no lugar e assegurar uma tensão igual dos seus fios. Agulha N° 24 recomendada

NL Gebruik een schuifknoop om de draad in de naald te steken. Dit houdt de naald op zijn plaats en zorgt dat beide draden dezelfde spanning houden. Aanbevolen naald nr: 24
